LABEL TIE

LOCKABLE – PRACTICAL – RELIABLE

The plastic hanging tag is a practical solution designed for fast and secure identification needs. Its lockable structure ensures that the tag remains securely fixed and provides resistance against removal.
It simplifies organization and identification processes across different areas of use.

Product Description

Thanks to its hanging structure and locking mechanism, it allows labels to be securely fixed in place. It is lightweight, durable and easy to use. It is used for identification purposes in logistics, cable and pipe bundling, retail and many other sectors.

TECHNICAL SPECIFICATIONS

Material	Polypropylene (PP)
Locking Mechanism	One-way locking
Label Area (Header)	7 x 4 cm
Tie Length	22 cm
Total Length (Approx.)	26 cm
Strap Width	6 mm
Operating Temperature	-10 °C to +50 °C
Usage	Indoor / Outdoor
UV Resistance	Medium
Chemical Resistance	Medium
Flame Retardancy	UL94 HB
Packaging	100 / 500 / 1000 pcs

VARIANTS

Black Recycle	Recycled PP material. Sustainable and eco-friendly.
Transparent Virgin	Virgin PP material. Transparent and clean appearance.

RECYCLABLE PLASTIC MATERIAL

Environmentally conscious production for a sustainable future.

AREAS OF USE

AREAS OF USE

- Cable and pipe bundling
- Logistics and shipment labeling
- Warehouse, shelf and equipment identification
- Retail and store labeling
- Production and process lines

ADVANTAGES

- Secure fastening with lockable design
- Fast and easy application
- Lightweight and practical use
- Large label area for clear writing
- Recyclable option

LOCKING MECHANISM

The one-way locking system provides resistance against removal.

WRITING AREA

The 7 x 4 cm label area is suitable for permanent markers, labels or barcode stickers.

ORDER / PRODUCT INFORMATION

PRODUCT CODE	VARIANT	COLOR	MATERIAL	LABEL AREA (CM)	TIE LENGTH (CM)	PACK QTY
PAE-SV-100	Transparent Virgin	Transparent	PP (Virgin)	7 x 4	22	100 / 500 / 1000
PAE-SR-100	Black Recycle	Black	PP (Recycle)	7 x 4	22	100 / 500 / 1000

With our environmentally conscious production approach, we add value to the future.
